7.1.3 .Describe the facilities in the Institution for the management of the following types of degradable and non degradable waste.

1. Solid Waste Management:

The solid waste is separated into two types, degradable and non-degradable. Degradable waste includes papers, journals, files, dry tree leaves, raw kitchen waste (canteen, mess) and hostel waste. Whereas non-biodegradable includes glass, metals, and E waste. After collection, these are disposed of through the collection mechanism set by the Pune Municipal Corporation which is adopted by the institute. For this, the Institute has an Annual Maintenance Contract with the approved agency, who collects the garbage on a on a daily basis.

2. Liquid Waste Management:

• STES has purchased a sewage treatment plant worth Rs.7, 84,966/- for the campus. All waste water-lines and drainage systems are connected to a Sewage Treatment Plant, having a capacity of treating 4 lac litter of water per day. Sewage Treatment Plant is used for liquid waste management. Organic Waste Converter (OWC-130) is an easy-to-use Decentralized Waste Management System having 50 kg waste batch size which is used to turn large amounts of organic waste into compost within 15 minutes. It includes double curing system having the capacity of 200 kg organic waste per day which uses a moisture control fogging system to maintain perfect moisture.

3. Biomedical Waste Management:

Biomedical waste collected in the campus is disposed-off through a mechanism set by Sinhgad Dental College & Hospital located in the campus.

4. E-Waste Management:

Keeping in mind the global hazards of electronic waste, Institute has set up a mechanism for removal of E -waste and scrap. Different types of e-waste generated in the institute like damaged batteries, cells, Hard Disk Drives, Monitors, Keyboards, Cables, Cartridges, etc. are collected and handed over to an external e-waste recycling agency.

5. Waste Recycling System:

Waste water recycling is practiced in the institute as mentioned above. Emphasis is given on use of one side papers for internal communication. Other scrap is given to an outside agency with whom a MoU has been signed.

6. Water Recycling System:

- Sinhgad Technical Education Society is surrounded with many different institutes and colleges which make our society to work on water recycling system. This recycled water is being circulated to all colleges cleaning the campus and maintaining the garden.
- This has helped to reduce the water storage and helped society in terms of consumption of water. This module not only helps society in general to recycle the water and make use of it in day today life but also largely benefited in terms of their personality growth.
- The students imbibe the values of water preservation and recycling through the water recycling plant. This system is monitored and maintained by our STES's Engineering department with outside agency.

The H'ble Founder President
STES

DEFICIENCY OF WATER - VADGAON-AMBEGAON CAMPUS

Respected Sir,

1. It is hereby informed that, the Water Irrigation Department has planned to cease the water flow in Mutha Right Canal, entirely, with effect from 23.11.2018. Hence, it is not possible to lift the water from the canal.
2. It is also informed that, we had experienced agitation of 400 students for not getting water in the hostels during September 2018.
3. We also take a water connection of 4 inch from the PMC water line, but it is not sufficient to provide water to whole campuses.
4. It is therefore requested to kindly grant permission to take another water connection of 6 inch from the PMC waterline and oblige.
5. Forwarded for your approval and further direction please.

Dr. A. V. Deshpande
