### SOCIO ECONOMIC SURVEY ON 6<sup>TH</sup> MARCH 2019

Socio Economic Survey was conducted on Saturday 6<sup>th</sup> March 2019 at Salawade Village Bhore Taluk, Pune District. The main objective of the village survey was to give students a practical knowledge of surveying and data collection. The village was a good example to understand the Socio economic status and changes happened in recent times.

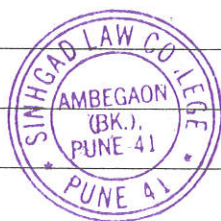

It was observed from the collected survey the increasing level of education and school enrolment in case of females, increasing share of household members as well as household income in nonfarm activities, occupational diversification and increasing integration with the urban areas are some of the important changes that have taken place at the household level over the years. The analysis however also reveals economically vulnerable position of marginal, landless, scheduled caste as well as Muslim households as compared to other household categories.
